Subject: Edcouch-Elsa Extension
Importance: High

Dear Mr. McDonald,

I am requesting an extension for the two (2) FRN's approved and funded for Edcouch-Elsa CISD for Year 4. We have been corresponding for several months concerning the withdrawal of funds for these FRN's. It has taken many months to research and make determinations over the status of these FRN's and Avnet was forced to stop work pending resolution of this issue. As I have heard from you today, these FRN's have been approved for the original funding requested, after your presentation to the FCC for resolution today.

I would appreciate your presentation of this request for an extension to the FCC for approval consistent with their decision to allow full funding for these FRN's.

I also want to thank you and the members of the FCC for your assistance and timely resolution of this issue.

The FRN's are as follows:

FRN	653399	Pre-discount amount	\$1,397,094.74
FRN	653666	Pre-discount amount	\$ 460,945.30

Our SPIN number is 143 007 906
Avnet, Inc.

Thank you again for your consideration.
Mike Beeman
